

About me:

I was born in Alexandria, but graduated from Cloquet High school in 1985. I went on to SCSU and graduated in 1992 with a Bachelor's Degree in Special Education. I completed my Master's Degree in 2009, and continue to take classes in order to sharpen my skills.

Now in my 15th year at the West Central Area Learning Center, I am continually renewed by the challenging and dynamic students that attend there. Previously, I worked at Barnum Schools, and Melrose High School, for a grand total of 21 years of teaching!

I enjoy camping, watching movies, reading, and spending time with my family. Helping with Boy Scouts (join today!) gets me out of the house and gives me time with my son.

I am proud to be part of a team that focuses on helping alternative learners to be their best! Please contact me if you have any questions about me, my classes, or the ALC in general!
